# Sinking Spring Family YMCA Community Commanders GENERAL INFORMATION

Parents, having issues finding care for your teen over the Summer? The Sinking Spring Family YMCA is thrilled to announce our teen program, Community Commanders, which will be entirely new for Summer 2019!

Still embodying the goals, vision, and activities of our traditional camp program, our Community Commanders will continue to participate in the fun of camp but will also have a separate curriculum working to improve and establish leadership skills while learning the importance of volunteerism by working with local community organizations and nonprofits. Not only is this program so much fun, but it's also a great resume booster that will prepare your child for the professional world!

With the skills, attributes, and experiences gained throughout the experience, our Commanders will then have the opportunity to advance to our brand new Counselor-in-Training (CIT) program in Summer 2020, where we will work to provide, refine, and instill our teens with the characteristics and skill sets necessary to thrive as both full-time counselors and adults.
